The Mystery of the Six Seals · Classroom printing instructions

This pack accompanies the printed Teacher's Manual and Student Workbook. Print the Scroll and sticker sheets for the number of students in your class; the Hebrew word cards may be used as teacher reference cards or reproduced for students.

What is included

• The Scroll of Beginnings — one 11 × 17-inch landscape sheet.
• Six Hebrew word cards — two US Letter sheets, ready to cut apart.
• Seals by lesson — one US Letter sheet with five copies of each of the six seals.
• Complete seal sets — one US Letter sheet with five sets of six seals.

Printing and preparation

Scroll: Print one per student on 11 × 17-inch paper, landscape. Select **Actual Size / 100%**; do not stretch the artwork to fill the page. Preserve the original illustration and wording.

Hebrew word cards: Print the two card pages on US Letter paper, preferably cardstock. Select **Actual Size / 100%**. Cut along the outside edges. Use the cards as a teaching reference or make a set for each student.

Seals: Use **Avery 94091, 1½-inch round labels, 30 labels per US Letter sheet**. Print at **Actual Size / 100%** with scaling disabled. Both layouts contain the same 30 seals; choose whichever arrangement is more convenient. Do not print both unless you need additional stickers.

Quantities: One 30-label sheet provides five students with six seals each. For a class of 6–10, print two sheets of your chosen seal arrangement. Distribute the appropriate seal as each case is completed, for placement on the Scroll.

Print check

Before printing a full class set, test one sticker sheet on plain paper against the Avery label stock and verify that printer settings have not introduced scaling or shifting.
